Title:	Bridgestone Golf Ball Fitting Technician
Position Type:	Seasonal
FLSA Status:	Non-exempt
Start Date:	Dec. 2026
End Date:	Mar. 2027
Resume Deadline:	11/06/2026
Description:	The Bridgestone Golf Ball Fitting Tech position is a seasonal contractor role for candidates seeking experience in the golf industry while promoting Bridgestone Golf products to consumers.

Job Responsibilities

The Ball Fitting Tech will:

- Evaluate the current data of each consumer's ball of choice by way of the Foresight Sports GC3 launch monitor.
- Recommend a Bridgestone golf ball that will better suit the end consumer's needs, helping them find the right ball for their game, offering increased distance and performance for better overall play.

Work Schedule:

- The Ball Fitting Tech will work approximately 5 days per week at various locations, including golf courses, retail locations, and sporting goods shops.
- Event time will vary, but average time spent per day is 7 to 8 hours.
- The anticipated fitting season will cover a total of 16 weeks with 5 scheduled fittings per week.

Travel:

- The Ball Fitting Tech will travel locally, typically within 4-5 hours of their central location. Overnight travel will account for 25-50% of specified contract.

Job Requirements

Education Required:	High School
Experience Required:	Basic understanding of golf and golf related product is necessary. Basic understanding of current golf ball offerings on market (preferable). Basic computer knowledge is required. Ability to travel overnight and extended distances is required.
